The Motor Neurone Disease Charter

The Motor Neurone Disease (MND) Charter is a statement of the respect, care and support that people with MND and their carers deserve and should expect.

The Charter signing campaign is the first step towards making sure everyone understands these priorities of care and pledges to work towards the Charters vision of the right care, in the right place, at the right time.

What the Charter says:

1. People with MND have the right to an early diagnosis and information.

2. People with MND have the right to access quality care and treatments.

3. People with MND have the right to be treated as individuals and with dignity and respect.

4. People with MND have the right to maximise their quality of life.

5. Carers of people with MND have the right to be valued, respected, listened to and well-supported.

The full text of the Motor Neurone Disease Charter is available on the website of the Motor Neuron Disease Association (www.mndassociation.org)
