

## **COMMUNITIES, REGENERATION AND ENVIRONMENT OVERVIEW AND SCRUTINY COMMITTEE**

### **Work Programme 2019/2020**

#### Introduction

The Communities, Regeneration and Environment Overview and Scrutiny Committee was established by the Council at the meeting held on 19th May 2015, the principal role of the Committee being to bring together both the physical and skills aspects of economic regeneration, and the supporting work of services such as leisure, highways, housing and environmental services etc. that provide the opportunities for work and the improvement of life experiences for the Borough's communities.

Areas of focus for the Committee include the scrutiny of partners or key contractors relevant to the remit of the Committee.

The work programme for the Committee is drawn up through consideration of the statutory roles of the Committee, including the 'call-in' or review of executive decisions made, budget and policy consultation, and review of service delivery, with scheduling reflecting the anticipated consideration of business to deliver these functions. The Committee has options for developing its own agenda and can request further business to come forward.

In brief, these are to hold the executive to account and to maintain an oversight of the delivery of Council services. This is undertaken principally through the following means:-

- Scrutiny of Executive Decisions through the 'Call-in' process;
- The consideration of Budget and Policy Framework proposals for consultative purposes;
- The consideration of a range of performance monitoring/management data;
- The specific consideration of individual service issues as may be specified by the Committee.

The Committee's Work Programme is prepared on the basis of known items at this time. Scheduling of some business remains to be determined and this is reflected in the Work programme. The following table highlights issues where there is either an agreement or an anticipation that specific items may come forward. Other issues can be brought forward as indicated above.
