

Heywood Township Committee

Date of Meeting	22 nd November 2021
Portfolio	Cabinet Member for Children's Services and Education
Report Author	Fay Davies
Public/Private Document	Public

Secondary School Places 2022 - 2025

Executive Summary

1. The new Edgar Wood Academy was opened for 2021 year 7 intake in Middleton. The second new mainstream Secondary school for Rochdale borough, which will be run by the Star Academies trust, is due to open in 2023 in Littleborough. The new Secondary SEN school, which will be run by the New Bridge Trust, is now scheduled to be open in 2023.

This report covers details of the new school and capacity of school places in the secondary school sector.

Recommendation

2. Consider the proposals to meet the additional demand for secondary school places which will be brought to the Cabinet committee.

Reason for Recommendation

3. The council has a statutory duty to offer every pupil living in the borough, who applies, a Secondary school place. Where the council offers a school place that is over the statutory “safe walking distance” for the age of that child the council is required to provide free school transport. Because bus transport in the area is provided through Transport for Greater Manchester, any child offered a school place, which is over the statutory distance criteria, is offered a free bus pass that is provided from council funds. The council receives no central government funding for school bus transport.

The council does receive Basic Need funding to provide additional school places for both permanent and temporary school building expansions and bulge classes. The allocation of Basic Need funding from central government is reported annually to the council Cabinet and the report this year was approved on 30th March 2021.

Key Points for Consideration
--

4. Contingency plans for Secondary school intake were last reported to Cabinet on 29th September 2020. For 2019 and 2020 intakes additional needed capacity was delivered by existing schools taking bulge classes, which were funded through Basic Need where capital works were required.
- 4.1 For 2021 intake a Secondary school place shortage was local to the Middleton area and some surplus was forecast for Rochdale central schools. The difficulty in travelling times from Middleton to Rochdale centre meant that offering surplus places in Rochdale centre to families in Middleton was not deemed a viable option. Consequently the council worked closely with the Altus Trust and the Department for Education to produce plans and contingencies to deliver the needed places in a temporary location. Additional bulge places were also offered at four existing schools.

In September 2021 the Edgar Wood Academy opened with 4 forms of entry, 120 pupil capacity, at a temporary site at Hopwood Hall College Campus in Middleton. The Permanent site is due to open at a site close at Bowlee on Heywood Old Road, Middleton for September 2022.

In September 2021 Wardle Academy also had a major building extension to provide 100 additional places; 50 for 2021 and 50 for 2022 intakes.

Heywood and Middleton

Because of the usual travel of pupils between Heywood and Middleton these areas are considered together. Available places and forecasts for pupils numbers are shown in figure 1 showing the expectation currently that schools in the Heywood and Middleton area will be at capacity despite the opening of the Edgar Wood Academy.

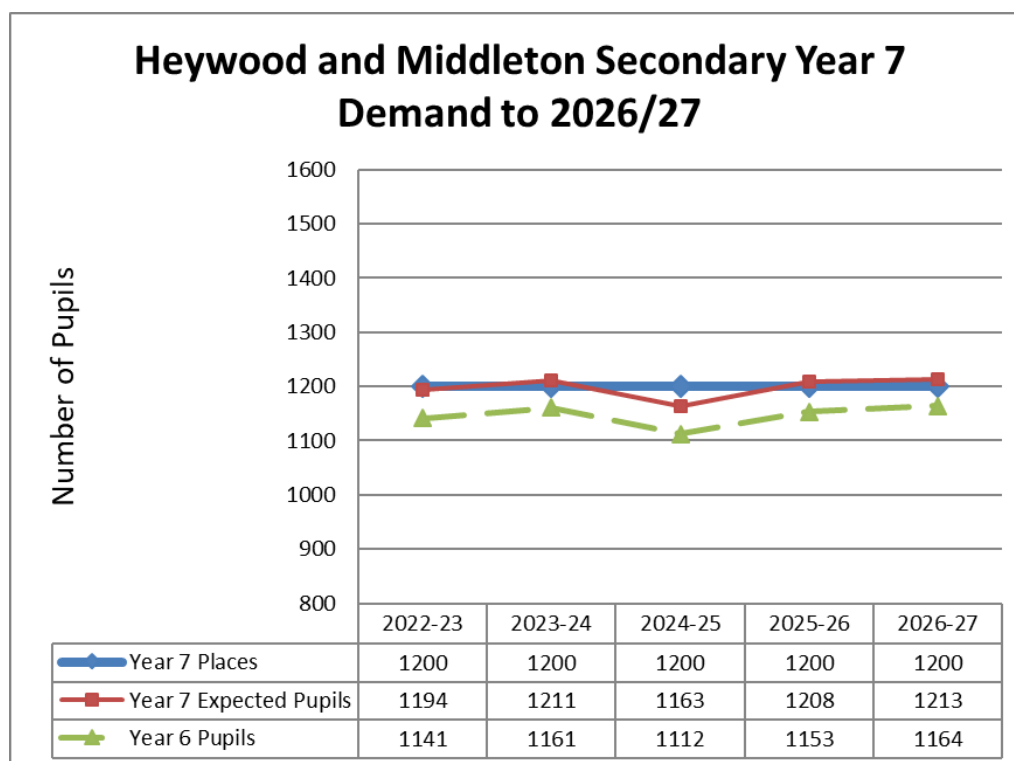

Figure 1: Forecast for Places and expected pupils in the combined Heywood and Middleton area

Admission numbers for the next intake year are shown in the table below.

School	Pupil Admission Number for 2022
Newhouse Academy	210
Holy Family RC & CE College	150
Middleton Technology School	270
Cardinal Langley RC High School	210
St. Anne's Academy	180
Edgar Wood Academy	180
Total	1200

Table 1 Places at Heywood and Middleton schools for 2022

Pennine and Rochdale

There has been a shortage of places in the popular Pennine Secondary schools for some time. It is expected that additional capacity created at Wardle Academy for 2021 and 2022 intakes will be filled. In the combined Pennine and Rochdale areas there is on average a 9% drop in pupils attending Rochdale LA maintained schools from year 6 to year 7. This is predominantly pupils choosing to travel to private, independent, grammar schools or schools in other local authority areas. This drop in pupils does change year to year between 8% and 11% and means out of borough factors cause difficulty with the forecast.

Figure 2: Secondary Intake forecast for Pennine and Rochdale

The forecast shows insufficient places available in existing schools if the new Littleborough Star Academy does not open for 2023, but the new school on current forecasts should be able to accommodate the forecasted number of pupils from 2023/24 to 2026/27. The council will continue to work with the DfE, Star Academies and local stakeholders to help deliver the needed school. A back up plan will also be needed either creating bulge classes in existing

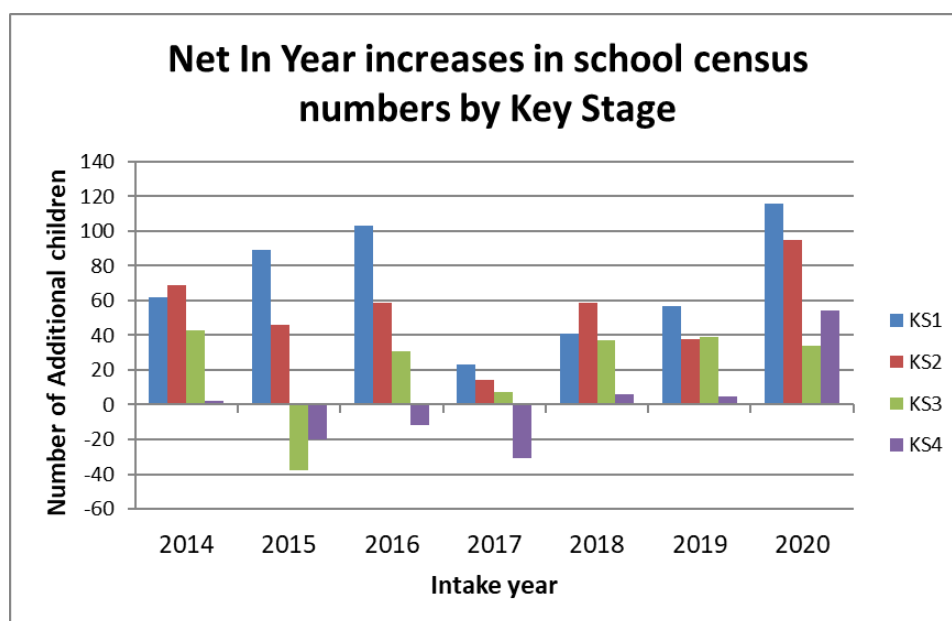

schools or alternative accommodation for the early opening of the Star academy Littleborough.

School	Pupil Admission Number for 2022
Hollingworth Academy	270
Wardle Academy	290
St.Cuthbert's RC High	240
Kingsway Park High	270
Matthew Moss High	240
Oulder Hill School	300
Falinge Park High School	270
Total	1880

Table 2: Places at Pennine and Rochdale schools for 2022

Other considerations

As detailed in the Primary School Places 2022-2025 report in-year applications for places either after the start of year 7 or in higher years groups have been rising for some years in both the Primary sector and Secondary Sector. In the last academic year the number of in-year Secondary pupils arriving on roll has been higher than ever.

Many of our Secondary schools are at capacity and the high rates of inflow of new pupils at the Secondary level is causing some issues. Last year Secondary schools accepted on-roll, and after the October school census, an additional 88 secondary pupils (net). While this is something the borough has seen before at Primary, it has never happened previously at Secondary. This includes 26 pupils arriving after the start of their final year of school (year 11).

As detailed above Rochdale sees a net loss of children at Secondary transition and this has varied year to year depending on factors outside the borough. In 2019 the popular Oldham Crompton House school completed a major extension and increased its intake by 50%. Next year (2022) a new school will open in Oldham offering additional places.

Alternatives Considered

Alternatives are constantly under review and any impacts of the current pandemic on house building rates or timing of new developments will have knock on effects on school capacity

Costs and Budget Summary

5. The costs associated with co-ordinating admission arrangements are met from the Dedicated Schools Grant.

Where applicable, schools offering additional pupil places to meet the LA's statutory need may also be eligible for additional revenue funding from the Dedicated Schools Grant. The policy and funding available for basic need growth has to be agreed with Schools Forum

Schools are funded based on the number of pupils. Whilst it is acknowledged that a school will have some vacant places, a high number of vacant places in a single year group created if pupils do not materialise as forecast will have an adverse effect on a school's funding. This can be managed in the short term through the application of the Growth Fund policy but it is not sustainable longer term.

Risk and Policy Implications

6. The application of pupil place planning arrangements contributes to the Council Business Plan in ensuring an effective allocation process for school admissions. The council has a statutory duty to offer a school place to every child living in the borough and must manage the schools estate to meet the predicted need.

Provision of sufficient Secondary school places, within the new school buildings that are being delivered through the centrally managed Free school programme, are not under control of the local authority, but because the statutory duty to provide places resides with the local authority then consequently the local authority needs to be ready to work with local partners to meet the needs of its residents if required.

The financial risks are covered in the Costs and Budget Summary section above.

Consultation

7. In order to open the new Littleborough school the Star Academies trust need to run a statutory consultation to seek stakeholder views.

Any temporary school accommodation that meets the criteria is required to go through the statutory planning consultation process.
